

TERM PROJECT PHASE I

NAMES OF THE TEAM MEMBERS:

*GİZEM PESEN(170709050)

*FATMA KARADAĞ(170709061)

PROJECT TOPIC:

Application that people can easily use to buy second-hand books.

DESCRIPTION:

According to the advanced algorithm system of Google, 129,864,880 books have been published in the world so far. In other words, there are books in the world for a long time and these books are also traded.

This trade is carried out in two ways: new books and second hand books. We will consider making a second hand book sales application to stimulate the book trade and try to help users access second hand books.

WRITE A SAMPLE SCENARIO:

1.Amy ,downloads to use the application.

2.Amy enters the username and password to login to the application.

3. Amy searches by typing the name of the book that she wants to find in the application in the search section.
4. Amy clicks on the book she is looking for from the options.
5. She looks at the features of the book she is looking for. For example; price, photographs and preliminary information etc.)
7. Amy contacts the seller to buy a product she likes.

DRAW THE USE CASE DIAGRAMS FOR YOUR PROJECT:
